

PREAMBLE

The Environmental Impact Assessment (EIA) Study was commissioned for the Proposed Development of Satellite Waste Management Centre Johor (SWMCJ) at PTD 2288 in Mukim Pantai Timur, District of Kota Tinggi, Johor for Cenviro (Johor) Sdn. Bhd (CJSB).

The project was initiated in 14th June 2017 and the revised Terms of Reference (TOR) for the EIA was submitted on 31st July 2017 to the Department of Environment (DOE) and approved on 15th August 2017. The study involves baseline environmental monitoring and surveys at the project site and its surrounding areas, the assessment of potential impacts, and recommendations for Pollution Prevention and Mitigation Measures (P2M2). The EIA Report comprises the following sections:

- | | |
|--------------------------|--|
| EXECUTIVE SUMMARY | - Non-technical Executive Summary in English and Bahasa Malaysia |
| TECHNICAL REPORT | - Prepared in English with findings of the impact assessment and mitigation measures supplemented by maps, figures, tables, photographs and appendices |
| FIGURES | - Figures attached for reference purposes |
| APPENDICES | - Attachments and supporting documents for the EIA report |
