SEVENTH SCHEDULE

ENVIRONMENTAL QUALITY ACT 1974

ENVIRONMENTAL QUALITY (SEWAGE) REGULATIONS 2009

IN exercise of the powers conferred by sections 21, 24, 25 and 51 of the Environmental Quality Act 1974 [Act 127], the Minister, after consultation with the Environmental Quality Council, makes the following regulations:

Citation

1. These regulations may be cited as the **Environmental Quality (Sewage) Regulations 2009**.

Interpretation

2. (1) In these Regulations—

“sludge” means any deposit of particulate matter settled from a liquid, including deposit resulting from physical, chemical, biological or other treatment of sewage;

“professional engineer” has the same meaning assigned to it in the Registration of Engineers Act 1967 [Act 138];

“sewage” means any liquid waste or wastewater discharge containing human, animal, domestic or putrescible matter in suspension or solution, and includes liquids containing chemicals in solution either in the raw, treated or partially treated form;

“licence” means a licence referred to in regulation 8 pursuant to subsection 25(1) of the Act;

“parameter” means any of the factors shown in the first column of the Second Schedule;

“authorized officer” means any officer appointed under section 3 of the Act or any other officer to whom the Director General has delegated his power under section 49 of the Act;

“dilution” means any process making sewage less concentrated by adding water or other liquids from external sources other than liquids or materials used for treating the sewage;

“performance monitoring” means the routine monitoring of certain characteristics to provide an indication that a treatment process is functional and capable of treating the sewage;

“population equivalent” means the equivalent in terms of a fixed population of a varying or transient population or other activity, for example industrial or commercial contributing to flow to the sewerage treatment system;

“sewage treatment system” means any facility designed and constructed for the purpose of reducing the potential of the sewage to cause pollution.

(2) Words and expressions which are not defined in these Regulations shall have the same meaning as assigned to them in the Act.

Application

3. These Regulations shall apply to any premises which discharge sewage onto or into any soil, or into any inland waters or Malaysian waters, other than any housing or commercial development or both having a population equivalent of less than one hundred and fifty.

Notification for new source of sewage discharge or release

4. (1) No person shall, without prior written notification to the Director General, discharge or release or permit the discharge or release of sewage onto or into any soil, or into any inland waters or Malaysian waters.

(2) The written notification to the Director General referred to in subregulation (1) shall be in the form as specified in the First Schedule.

Provision and proper operation of sewage treatment system

5. (1) An owner or occupier of any premises shall operate and maintain a sewage treatment system in accordance with sound engineering practice for the treatment of sewage and ensure that all components of the sewage treatment system are in good working condition.

(2) In this regulation, “sound engineering practice” means the manner by which sewage treatment system is operated where the operational characteristics are maintained within the normal range of values commonly used for the treatment of sewage.

Competent person

6. (1) The operation of a sewage treatment system shall be supervised by a competent person.

(2) A competent person shall be a person who has been certified by the Director General that he is duly qualified to supervise the operation of a sewage treatment system.

(3) An owner or occupier of any premises shall ensure that a competent person is on duty at any time the sewage treatment system is in operation.

Acceptable conditions of sewage discharge

7. (1) No person shall discharge sewage which contains substances in concentration greater than the limits of—

- (a) Standard A, as shown in paragraph (i) of the Second Schedule, for new sewage treatment systems discharging into any inland waters within the catchment areas as specified in the Third Schedule;
- (b) Standard B, as shown in paragraph (i) of the Second Schedule, for new sewage treatment systems discharging into any other inland waters or Malaysian waters;
- (c) Standard A, as shown in paragraph (ii) of the Second Schedule, for existing sewage treatment systems discharging into any inland waters within the catchment areas as specified in the Third Schedule;
- (d) Standard B, as shown in paragraph (ii) of the Second Schedule, for existing sewage treatment systems discharging into any other inland waters or Malaysian waters;
- (e) Standard A, as shown in paragraph (iii) of the Second Schedule, for existing sewage treatment systems discharging into any inland waters within the catchment areas as specified in the Third Schedule; or
- (f) Standard B, as shown in paragraph (iii) of the Second Schedule, for existing sewage treatment systems discharging into any other inland waters or Malaysian waters.

(2) An owner or occupier of a premises shall submit a program to the Director General and implement such program to ensure that all existing sewage treatment systems, except the communal septic tanks and imhoff tanks—

- (a) which discharge sewage into any inland waters within the catchment areas as specified in the Third Schedule, comply with the Standard A as shown in paragraph (i) of the Second Schedule on or before 31 December 2016; and
- (b) which discharge sewage into any other inland waters or Malaysian waters, comply with the Standard B as shown in paragraph (i) of the Second Schedule on or before 31 December 2019.

(3) In this regulation—

- (a) “new sewage treatment system” means a sewage treatment built after the date of the coming into operation of these Regulations; and
- (b) “existing sewage treatment system” means a sewage treatment system approved between the period after January 1999, until immediately before the date of the coming into operation of these Regulations.

Licence to contravene acceptable conditions for sewage discharge

8. (1) An owner or occupier of premises may apply for a licence under subsection 25(1) of the Act to contravene the acceptable conditions of sewage discharge as specified in regulation 5.

(2) An application for a licence under subregulation (1) shall be made in accordance with the procedures as specified in the Environmental Quality (Licensing) Regulations 1977 [P.U. (A) 198/1977] and shall be accompanied by—

- (a) a report on sewage characterization study; and
- (b) a licence fee as specified in regulation 24.

Method of analysis and sampling of sewage

9. (1) An authorized officer may carry out an *in-situ* or *ex-situ* analysis of sewage using any instrument approved by the Director General.

(2) An analysis of sewage discharged or released onto or into any soil, or into any inland waters or Malaysian waters shall be carried out in accordance with any of the methods contained in the publications as specified in the Fourth Schedule.

(3) The analysis of sewage referred to in this regulation shall be based on grab samples.

(4) In this regulation—

- (a) “*in-situ* analysis” means the analysis conducted on a sewage sample that has not been removed from its location or conducted at the site where the sample was taken;
- (b) “*ex-situ* analysis” means the analysis conducted on a sewage sample that has been removed from its location and conducted at the different site from the site where the sample was taken; and
- (c) “grab sample” means a discrete individual sample taken within a period of time of less than 15 minutes.

Monitoring of sewage discharge

10. (1) An owner or occupier of a premises that discharges sewage onto or into any soil, or into any inland waters or Malaysian waters shall, at his own expense—

- (a) monitor the concentration of the parameters specified in the first column of the Second Schedule; and
- (b) install flow-meters, sampling equipment and recording equipment.

(2) The owner or occupier of the premises shall maintain a record of sewage discharge monitoring data in the format as specified in the Second Schedule.

(3) The owner or occupier of the premises shall submit the first record of sewage discharge monitoring data to the Director General within thirty days after the date of the coming into operation of these Regulations and the subsequent reports shall be submitted within thirty days after the end of the calendar month for the report of the previous month.

(4) The record of sewage discharge monitoring data shall also be made available for inspection by any authorized officer.

Point of discharge of sewage

11. (1) The point of discharge of sewage shall comply with the specifications as specified in the Sixth Schedule and shall be clearly indicated by the owner or occupier of a premises on the layout plans and engineering drawings certified by a professional engineer.

(2) An owner or occupier of the premises shall submit to the Director General the layout plans and engineering drawings referred to in subregulation (1) within thirty days prior to the commencement of the operations at the premises.

(3) Where an owner or occupier of the premises proposes to make any alteration or change to the location or position of the point of discharge or design of the outlet at the point of discharge of sewage, he or it shall notify the Director General within thirty days prior to the making of any alteration or change.

Prohibition against sewage discharge through by-pass

12. (1) No person shall discharge or cause or permit the discharge of sewage onto and into any soil, or into any inland waters or Malaysian waters through a by-pass.

(2) In this regulation, "by-pass" means any intentional diversion of sewage from any portion of a sewage treatment system.

Spill or accidental discharge of sewage

13. (1) In the event of the occurrence of any spill or accidental discharge of sewage from any premises, which either directly or indirectly gains or may gain access onto or into any soil, or into any inland waters or Malaysian waters, the owner or occupier of the premises shall immediately and not more than six hours from the time of the occurrence inform the Director General of the occurrence.

(2) An owner or occupier of the premises shall, to every reasonable extent, contain, cleanse or abate the spill or accidental discharge of sewage in a manner that satisfies the Director General.

(3) The Director General may in any particular case, if he considers it necessary to do so, specify the manner in which the spill or accidental discharge is to be contained, cleansed or abated and the owner or occupier of the premises shall comply with such specification.

(4) The Director General shall determine any damage caused by any spill or accidental discharge and may recover all costs and expenses from the owner or occupier of the premises.

(5) Where the Director General undertakes to cleanse or abate any spill or accidental discharge, he shall determine the full costs and expenses incurred and may recover such costs and expenses from the owner or occupier of the premises in accordance with the provisions of section 47 of the Act.

Prohibition against discharge of sludge into inland waters or Malaysian waters

14. No person shall discharge or cause or permit the discharge of any sludge that is generated from any sewage treatment system into any inland waters or Malaysian waters.

Restriction on the disposal of sludge onto land

15. No person shall discharge, or cause or permit the disposal of, sludge generated from any sewage treatment system onto or into any soil or surface of any land without the prior written permission of the Director General.

Application for disposal of sludge onto land

16. An application for a written permission of the Director General under regulation 17 shall be accompanied by the prescribed fee of five hundred ringgit.

Reporting changes in information furnished for purpose of application of licence

17. An applicant for a licence or for the renewal or transfer of such licence shall, within seven days of the occurrence of any material change in any information furnished in his application or furnished in writing pursuant to a request by the Director General under subsection 11(2) of the Act, give the Director General a report in writing of the change.

Display of licence

18. The holder of a licence shall display his licence, together with every document forming part of the licence, in conspicuous place in the principal building of his or its premises.

Continuance of existing conditions and restrictions in case of change in occupancy

19. Where a person becomes the occupier of a licensed premise in succession to another person who holds an unexpired licence in respect of such premises, then—

- (a) for a period of fourteen days after the change in occupancy; or
- (b) where the new occupier applies within the period specified in paragraph (a) for the transfer of the licence to him, for the period from the change in occupancy until the final determination of his application,

the conditions and restrictions of the licence shall be binding on the new occupier and shall be observed by him, notwithstanding that he is not yet the holder of the licence or that the licence may, during the period as specified in paragraph (a) or (b), as the case may be, have expired.

Maintenance of records

20. (1) An owner or occupier of a premises equipped with a sewage treatment system shall maintain records of the operation, maintenance and performance monitoring of the sewage treatment system.

(2) The records maintained under subregulation (1) shall be made available for inspection by any authorized officer.

Personnel training

21. (1) An owner or occupier of any premises equipped with a sewage treatment system—

- (a) shall ensure that his or its employees attend training on environmental requirements and on the best practices in the operation and maintenance of sewage treatment systems before they begin work;
- (b) shall ensure that the training for his or its employees include retraining on updates for new, revised and existing requirements and procedures; and
- (c) shall maintain records of training which shall include the training date, name and position of employee, training provider and a brief description of the training content.

(2) The record under paragraph (1)(c) shall be submitted to the Director General upon request and shall be made available for inspection by any authorized officer.

Provision for inspection

22. An owner or occupier of a premises who discharges sewage onto or into any soil, or into any inland waters or Malaysian waters shall, in connection with such discharge, install inspection chambers, flow-meters, sampling equipment, monitoring equipment, and measuring and recording equipment.

Owner or occupier to render assistance during inspection

23. An owner or occupier of any premises shall provide the Director General or any authorized officer every reasonable assistance and facility available at the premises, including labour, equipment, appliances and instruments that the Director General or authorized officer may require for the purpose of taking any action.

Fee for licence

24. (1) The fee for a licence, including the renewal and transfer of a licence, shall be five hundred ringgit and an additional sewage-related licence fee computed in accordance with the method as specified in the Seventh Schedule.

(2) The fee for a licence including the renewal and transfer of a licence of five hundred ringgit shall accompany the application and shall not be refundable.

(3) The sewage-related licence fee shall not become due until called for.

Waiver of fee

25. (1) If the Director General is satisfied that the research on sewage treatment or disposal that is being or is to be conducted on a licensed premises is likely to benefit the cause of environmental protection, he may, with the approval of the Minister, wholly, or partly, waive any sewage-related licence fee payable by virtue of regulation 24.

(2) In deciding the extent of the waiver, the Director General shall be guided by the consideration of the pollution loading of sewage being discharged or to be discharged.

Penalty

26. Any person who contravenes regulations 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 17, 18, 19, 20, 21, 22 and 23 shall be guilty of an offence and shall be liable to a fine not exceeding one hundred thousand ringgit or to a term of imprisonment for a period not exceeding five years or to both and to a further fine not exceeding one thousand ringgit a day for every day that the offence is continued after the notice by the Director General requiring him to cease the act specified in the notice has been served upon him.

Revocation, transitional and savings provision

27. (1) The Environmental Quality (Sewage and Industrial Effluents) Regulations 1979 [P.U. (A) 12/1979] is revoked (hereinafter referred to as "the revoked Regulations").

(2) Any application made under the revoked Regulations for a licence to contravene the acceptable conditions, renewal or transfer of the licence or written permission which are pending immediately before the date of the coming into operation of these Regulations shall, after the date of the coming into operation of these Regulations, be dealt with under the revoked Regulations and for such purposes it shall be treated as if these Regulations have not been made.

(3) All licences issued or written permission granted under the revoked Regulations shall, after the date of the coming into operation of these Regulations, continue to remain in full force and effect until the licence expires, is amended, suspended or canceled, or the written permission expires or is revoked under the revoked Regulations and for such purposes it shall be treated as if these Regulations have not been made.

(4) The provisions of the revoked Regulations relating to the acceptable conditions for sewage discharge shall continue to apply until twelve months after the date of the coming into operation of these Regulations where on the date of the coming into operation of these Regulations—

- (a) any work on any construction of any sewage treatment system has not commenced within twelve months from the date of the issuance of the written permission for its construction immediately before the date of the coming into operation of these Regulations;
- (b) any work on any construction of any sewage treatment has commenced but has not been completed immediately before the date of the coming into operation of these Regulations; or
- (c) any work on any construction of any sewage treatment system has been completed but has not begun its operation immediately before the date of the coming into operation of these Regulations.

(5) Where on the date of the coming into operation of these Regulations, any premises is discharging sewage into any inland waters which is not specified as a catchment area under the revoked Regulations immediately before the date of the coming into operation of these Regulations, the provisions of the revoked Regulations relating to acceptable conditions for sewage discharge shall continue to apply to such sewage discharge until twelve months after the date of the coming into operation of these Regulations.

(6) Notwithstanding anything contained in these Regulations, upon the date of the coming into operation of these Regulations, in relation to sewage discharge from any sewerage treatment system, other than communal septic tanks and imhoff tanks—

- (a) the provisions of the revoked Regulations relating to acceptable conditions of sewage discharge as specified in paragraphs (ii) and (iii) of the Second Schedule for Standard A shall apply until 31 December 2016; and
- (b) the provisions of the revoked Regulations relating to acceptable conditions of sewage discharge as specified in paragraphs (ii) and (iv) of the Second Schedule for Standard B shall apply until 31 December 2019.

(7) Any proceeding, whether civil or criminal, commenced under the revoked Regulations and are pending on the date of the coming into operation of these Regulations shall, on the date of the coming into operation of these Regulations, be continued and concluded under the revoked Regulations and for such purposes it shall be treated as if these Regulations have not been made.

FIRST SCHEDULE

(Regulation 4)

NOTIFICATION FOR NEW SOURCES OF SEWAGE DISCHARGE OR RELEASE

SECTION I

IDENTIFICATION OF PREMISES

1. (i) Name and address of premises:.....

.....

Mailing address of premises (if different from above):.....

.....

Telephone number: Fax number:

(ii) File reference number of Department of Environment (if applicable):

.....

SECTION II
DESCRIPTION OF PREMISES

2. (i) Description of premises/development project
(Please tick ✓ in the relevant box below)

(a) Housing/ Residential	<input type="checkbox"/>	(b) Commercial	<input type="checkbox"/>
(c) Industrial Estate	<input type="checkbox"/>	(d) Mixed (commercial plus residential)	<input type="checkbox"/>
(e) Mixed (industry plus commercial)	<input type="checkbox"/>	(f) Mixed (industry plus residential)	<input type="checkbox"/>
(g) Hotel	<input type="checkbox"/>	(h) Resort	<input type="checkbox"/>
(i) Others	<input type="checkbox"/>		

Please describe:

- (ii) Size of premises/development project

(Please describe the size of the premise/development project in terms of population equivalent and other descriptors such as number of units, number of rooms, land area, etc. wherever relevant)

Population equivalent:

Number of units:

Number of rooms:

Land area (acres):

Other information:

SECTION III

INFORMATION ON SEWAGE TREATMENT SYSTEM

3. (i) Type of treatment system
(Please tick ✓ in the relevant box below)

(a) Conventional Activated Sludge System	<input type="checkbox"/>	(b) Oxidation Ponds	<input type="checkbox"/>
(c) Extended Aeration Activated Sludge System	<input type="checkbox"/>	(d) Oxidation Ditch	<input type="checkbox"/>
(e) Rotating Biological Contactor	<input type="checkbox"/>	(f) Trickling Filter	<input type="checkbox"/>

(g) Sequencing Batch Reactor

(h) Others

Please describe:.....

SECTION IV

DISCHARGE INFORMATION

4. (i) Where is the treated sewage (i.e. the final sewage) discharged into?
(Please tick ✓ in the relevant box below)

(a) Watercourse

Name of watercourse:.....

(b) Lake

Name of lake:.....

(c) Sea

Name of sea:.....

(d) Estuary

Name of estuary:.....

(e) Others

Please describe:.....

- (ii) Location of discharge point

Latitude:..... Longitude:.....

SECTION V

DECLARATION

I, hereby declare that all information given in this form is to the best of my knowledge and belief true and correct.

Signature of responsible person:

.....
Name:

Designation:

Date:

(Affix official seal or stamp of company)

SECOND SCHEDULE

(Regulation 7)

ACCEPTABLE CONDITIONS OF SEWAGE DISCHARGE OF STANDARDS A AND B

(i) New sewage treatment system

Parameter (1)	Unit (2)	Standard	
		A (3)	B (4)
(a) Temperature	°C	40	40
(b) pH Value	—	6.0-9.0	5.5-9.0
(c) BOD ₅ at 20°C	mg/L	20	50
(d) COD	mg/L	120	200
(e) Suspended Solids	mg/L	50	100
(f) Oil and Grease	mg/L	5.0	10.0
(g) Ammoniacal Nitrogen (enclosed water body)	mg/L	5.0	5.0
(h) Ammoniacal Nitrogen (river)	mg/L	10.0	20.0
(i) Nitrate – Nitrogen (river)	mg/L	20.0	50.0
(j) Nitrate – Nitrogen (enclosed water body)	mg/L	10.0	10.0
(k) Phosphorous (enclosed water body)	mg/L	5.0	10.0

Note:

Standard A is applicable to discharges into any inland waters within catchment areas listed in the Third Schedule, while Standard B is applicable to any other inland waters or Malaysian waters.

(ii) Existing sewage treatment system (approved before January 1999)

This category refers to all sewerage treatment systems which were approved before the Guidelines for Developers: Sewerage Treatment Vol. IV, 2nd edition and were enforced by the Department of Sewerage Services, Ministry of Housing and Local Government, beginning January 1999. Below are the acceptable conditions for sewage discharge according to type of sewage treatment systems:

Parameter (1)	Unit (2)	Type of Sewage Treatment System									
		Communal Septic Tank		Imhoff Tank		Aerated Lagoon		Oxidation Pond		Mechanical System	
(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)		
(a) BOD ₅ at 20°C	mg/L	200	200	175	175	100	100	120	120	60	60
(b) COD	mg/L	—	—	—	—	300	300	360	360	180	240
(c) Suspended Solids	mg/L	180	180	150	150	120	120	150	150	100	120
(d) Oil and Grease	mg/L	—	—	—	—	—	—	—	—	20	20
(e) Ammoniacal Nitrogen	mg/L	—	—	100	100	80	80	70	70	60	60

Note:

1. Standard A is applicable to discharge into any inland waters within catchment areas listed in the Third Schedule, while Standard B is applicable to any other inland waters or Malaysian waters.
2. These standards are applicable to the sewerage treatment systems that may have been constructed prior to 1999 based upon approval given by other agency, other than the Department of Sewerage Services, Ministry of Housing and Local Government.

(iii) Existing sewage treatment system (approved after January 1999)

All sewerage treatment systems which were approved after the Guidelines for Developers: Sewerage Treatment Vol. IV, 2nd edition and were enforced by the Department of Sewerage Services, Ministry of Housing and Local Government, beginning January 1999 and up to the date of coming into operation of these Regulations.

<i>Parameter</i>	<i>Unit</i>	<i>Standard</i>	
		<i>A</i>	<i>B</i>
(a) BOD ₅ at 20°C	mg/L	20	50
(b) COD	mg/L	120	200
(c) Suspended Solids	mg/L	50	100
(d) Oil and Grease	mg/L	20	20
(e) Ammoniacal Nitrogen	mg/L	50	50

Note:

Standard A is applicable to discharge into any inland waters within catchment areas listed in the Third Schedule, while Standard B is applicable to any other inland waters or Malaysian waters.

THIRD SCHEDULE

(Regulation 7)

LIST OF CATCHMENT AREAS WHERE STANDARD A APPLIES

1. The catchment areas referred to in these Regulations shall be the areas upstream of surface or above subsurface water supply intakes, for the purpose of human consumption including drinking water.
2. For the purpose of these Regulations, the water supply intakes shall include the public water supply intakes specified below:

(1) The State of Johor

<i>Location of Water Intake</i> (1)	<i>Name of River/Reservoir/Well</i> (2)	<i>Water Supply Scheme</i> (3)
<i>Longitude (East)</i>	<i>Latitude (North)</i>	
102° 40' 12"	2° 39' 29"	Sg. Muar Segamat
102° 55' 37"	2° 32' 57"	Sg. Segamat Segamat

<i>Location of Water Intake</i>		<i>Name of River/Reservoir/Well</i>	<i>Water Supply Scheme</i>
(1)	(2)	(3)	
<i>Longitude (East)</i>	<i>Latitude (North)</i>		
102° 03' 10"	2° 28' 02"	Sg. Jauseh	Segamat
102° 03' 10"	2° 28' 02"	Sg. Jauseh	Segamat
102° 39' 57"	2° 25' 29"	Sg. Jementah	Segamat
102° 49' 55"	2° 21' 01"	Sg. Muar	Muar
102° 47' 11"	2° 18' 11"	Sg. Muar	Muar
102° 48' 40"	2° 14' 59"	Sg. Muar	Muar
102° 44' 58"	2° 12' 04"	Sg. Muar	Muar
102° 44' 03"	2° 10' 49"	Sg. Muar	Muar
102° 05' 03"	1° 53' 09"	Sg. Sembong/ Sg. Bekok Transf	Batu Pahat
103° 32' 24"	2° 12' 03"	Sg. Kahang	Kluang
103° 26' 55"	2° 05' 27"	Sg. Kahang	Kluang
103° 40' 14"	2° 35' 15"	Labong Dam	Mersing
103° 47' 31"	2° 30' 22"	Conggok Dam	Mersing
103° 39' 22"	2° 23' 13"	Sg. Lenggor	Mersing
103° 54' 07"	2° 02' 11"	Sg. Sedili Besar	Mersing
103° 51' 16"	2° 16' 27"	Bekas Lombong	Mersing
104° 02' 52"	1° 53' 38"	Sg. Gembut	Kota Tinggi
103° 49' 50"	1° 49' 52"	Sg. Pelepath	Kota Tinggi
103° 43' 19"	1° 48' 01"	Sg. Linggiu	Kota Tinggi
103° 40' 05"	1° 48' 14"	Sg. Sayong	Kota Tinggi
103° 40' 05"	1° 48' 14"	Sg. Sayong	Kota Tinggi
103° 35' 28"	1° 51' 28"	Sg. Penggeli	Kota Tinggi
104° 08' 08"	1° 44' 39"	Sg. Sedili Kecil	Kota Tinggi

FOURTH SCHEDULE

(Regulation 9)

METHODS OF ANALYSIS OF SEWAGE

1. The 21st edition of "Standard Methods for the Examination of Water and Wastewater" published jointly by the American Public Health Association, the American Water Works Association and the Water Environment Federation of the United States of America; or
2. "Code of Federal Regulations, Chapter 40, Subchapter D, part 136" published by the Office of the Federal Register, National Archives and Records Administration, United States of America.

FIFTH SCHEDULE

(Regulation 10)

MONTHLY SEWAGE DISCHARGE MONITORING REPORT**SECTION I****IDENTIFICATION**

1. (i) Name and address of premises:
-
.....

Telephone number: Fax number:

- (ii) File reference number of Department of Environment (if applicable):
-

2. (i) Name and address of accredited analytical laboratory:

.....
Telephone number: Fax number:

(ii) Name of analyst:

.....
3. (i) Reporting year :

(ii) Reporting month:

SECTION II

SEWAGE INFORMATION*

4. (i) Flowrate

Maximum: m³/d, Minimum: m³/d

(ii) Population equivalent (P.E.):

(iii) Quality of sewage discharged

Quality of sewage discharged (unit in mg/L) for new sewage treatment systems

Parameter	First Week Date:	Second Week Date:	Third Week Date:	Fourth Week Date:
BOD _s at 20°C				
COD				
Suspended Solids				
Oil and Grease				
Ammoniacal Nitrogen (enclosed water body)				
Ammoniacal Nitrogen (river)				
Nitrate – Nitrogen (river)				
Nitrate – Nitrogen (enclosed water body)				
Phosphorous (enclosed water body)				

Quality of sewage discharged (unit in mg/L) for existing sewage treatment systems

Parameter	First Week Date:	Second Week Date:	Third Week Date:	Fourth Week Date:
BOD ₅ at 20°C				
COD				
Suspended Solids				
Oil and Grease				

NOTE:*

- (a) The flowrate and concentration of sewage at the point of discharge as determined in accordance with the sampling procedure and method of analysis as specified in regulation 9.
- (b) Sewage treatment systems with less than 5000 population equivalent (P.E.) shall conduct sampling once a month only.

SECTION III
DECLARATION

I, hereby declare that all information given in this form is to the best of my knowledge and belief true and correct.

Signature of responsible person:

.....
Name:

Designation:

Date:

(Affix official seal or stamp of company)

SIXTH SCHEDULE

(Regulation 11)

SPECIFICATIONS OF POINT OF DISCHARGE OF SEWAGE

1. The discharge point is located within the boundary of the sewage treatment system, immediately after its the final unit operation or unit process.
2. The location of the discharge point is easily accessible and does not pose any safety hazards to personnel performing site inspection or sewage sampling.
3. The leachate is discharged through a pipe, conduit or channel to facilitate sewage sampling.

4. The discharge point is physically identified by installing a metal identification sign which reads "Final Discharge Point".
5. The discharge point and its surrounding is properly maintained to be free from any obstruction that may pose difficulty or hazards during site inspection or sewage sampling.

SEVENTH SCHEDULE

(Regulation 24)

METHOD OF COMPUTING SEWAGE-RELATED LICENCE FEE

1. For existing sewage treatment systems, the sewage-related licence fee is computed as follows:

Parameter	Fee per kg of contaminant discharged into inland waters as specified in subparagraphs 5(1)(a), (c) or (e)	Fee per kg of contaminant discharged onto any soil or into other inland waters
(i) BOD ₅ at 20°C	RM0.50	RM0.05
(ii) Oil and Grease	RM2500.00	RM250.00

2. For new sewage treatment system, the sewage-related licence fee is computed as follows:

Parameter	Fee per kg of contaminant discharged into inland waters specified in subparagraphs 5(1)(a), (c) or (e)	Fee per kg of contaminant discharged onto any soil or into other inland waters
(i) BOD ₅ at 20°C	RM0.50	RM0.05
(ii) Oil and Grease	RM2500.00	RM250.00
(iii) Ammoniacal Nitrogen	RM500.00	RM50.00

Made 12 October 2009
 [AS(S) 91/110/919/026; PN(PU²)280/XII]

DATUK DOUGLAS UGGAH EMBAS
Minister of Natural Resources and the Environment
