

## CHAPTER 2

# TITLE OF PROJECT

### 2.1 PROJECT TITLE

The project presently is entitled:

***“Preliminary Environmental Impact Assessment (EIA) Study for the Proposed Logging Activities on 60 Hectares at Mukim Relai, Daerah Chiku, Jajahan Gua Musang, Kelantan Darul Naim”***

For brevity, it may be referred to as the ‘Project’ in this report.

### 2.2 PROJECT BACKGROUND

The proposed project is a logging activity on the government land with an area of approximately 60 hectare and located at Mukim Relai, Daerah Chiku, Jajahan Gua Musang, Kelantan Darul Naim. The land was alienated to Batu Hitam Enterprise for logging operation by the state government. Geographically, the proposed project is sited next to Taman Negara Sanctuary and drained off by tributaries of Sungai Ghuan.

In order to preserve the environment, project proponent shall develop the project area in stages by constructing the access road, temporary camp site and ‘Betau’. Necessary infrastructures such as logging road and Timber Bridge across the logging track shall be provided if necessary on the ground. The proposed activity is to begin with pre-planning and site preparation before logging activity being carried out to extract valuable logs.
